

Faculty profile

Mr Kamal Deep FRCS (Trauma and Orthopaedic)

Orthopaedic Consultant at the Golden Jubilee National Hospital

Mr Kamal Deep is a Consultant Orthopaedic Surgeon specialised in primary and revision hip and knee replacements, computer aided navigation in hip and knee joint arthroplasty, arthroscopic meniscal and ligamentous surgery including ACL reconstructions, joint replacement and outcomes, and biomechanics of knee and hip joint.

Mr Deep is the founder of [The British Association of Computer Assisted Orthopaedic Surgery](#). He has done a lot of research work in computer aided navigation in joint replacement and kinematics of human joints. He uses this novel technique routinely in total hip replacement and total knee replacement surgery
